## Cancer & Cell Biology Graduate Program Thesis Committee Meeting Report

Committee member: \_\_\_\_\_

Student: \_\_\_\_\_ Date of meeting: \_\_\_\_\_

Tentative thesis title: \_\_\_\_\_

Approximate date projected for completion of thesis: \_\_\_\_\_

How would you characterize the proposed thesis? (Please check any that apply and add comments to clarify your views.)

Hypothesis driven

Analysis of mechanism

Descriptive

Risky

Comments:

In your view, experimental progress during the previous six months was:

Excellent

Good

Average

Inadequate

If progress was inadequate, what do you believe are the main reasons?

How would you rate the student's intellectual approach to the project?

Excellent

Good

Average

Poor

Do you have any specific recommendations/advice for the student?
