Mission
The College of Medicine and NIH sponsors (through a mentored medical student research program) a program for students after the 1st year of medical school in an effort to provide early exposure to research as a potential career for physicians. The program is designed to expose students to the methods and techniques utilized in biomedical research. The long term goal is to encourage medical students and young physicians to pursue careers in biomedical research.

How Can You Participate?
Interested students choose a mentor and research project based upon their particular interests. Preference is given to projects related to digestive disease, nutrition, diabetes, and kidney disease. Contact with potential mentors is encouraged during December or January. To apply, the student (with the help of his/her proposed mentor) submits a research proposal describing the specific project.

Deadline for submission of proposals:
Friday, February 17, 2017.

Final applicants will be notified by:
Friday, March 24, 2017.

Proposals are reviewed by the Medical Student Research Committee of the COM and up to 20 students can be funded with salary support up to $5,844 for 9-10 weeks with $500 support for supplies.

A list of mentors and previous students can be found in this brochure. For additional information regarding the program including application guidelines, previous students, their projects and mentors, and their research focuses.

2017 Fall Symposium & Awards Banquet
(Medical Student Summer Research Program Fellows)
Friday, October 13, 2017

The poster presentation is accompanied by a guest lecture given by a nationally renowned physician-scientist. Program participants have an opportunity to meet with this individual informally to discuss science, career decisions, etc. The program concludes with a banquet at which the winning presentations are announced and prizes are awarded.

The top two posters are selected to represent the College at the National Student Research Forum in Galveston, TX in April, 2017.

Congratulations to 1st Place 2016 MSSRP Winners — Toral Vaidya & Brij Patel
