TAKE10 educates on importance of compression-only CPR

TAKE10 Cincinnati is a hands-on grassroots organization whose purpose is to educate the general public on the technique and the importance of compression-only CPR. On November 5, under the direction of medical student representatives from TAKE10, students learned compression-only CPR and practiced on mannequins. We discussed the importance of maintaining compressions until a trained medical professional arrives and, further, the impact this skill provides even without the previously encouraged mouth-to-mouth technique. Although it can be tiring after some time, compression-only CPR is an important life-saving skill for everyone to learn. More information at TAKE10Cincinnati.com.

Student Spotlight: Allison Gregg

Hello all, I am a senior and 1 of the 20 people majoring in Medical Laboratory Science (MLS) in my class. I applied for this minor because the classes sounded interesting and unlike those offered on main campus. My plans after graduation are to learn to actually cook, join a book club, take classes, hike, travel, and be happy. Career wise, I am going to work in an MLS in a lab and perhaps later I may apply to med school. One interesting thing about myself is that I have gone hang gliding and looooolllllllllllll dark chocolate.

Fall Application Update: Selections for Minor

Applications to join the incoming class for the Medical Sciences Minor have been reviewed and decisions have been made. Applicants will be notified of their status by February 1st.

Highlighted Dates

- January 21st
  - Medical Sciences Minor Meeting
  - MSB 4051 at 5PM
  - Lecture: Dr. Jack Rubinstein Cardiologist
- January 26th
  - ROSE Application Closes
- February 2nd
  - SURF Application Closes
- February 4th
  - Medical Sciences Minor Meeting
  - MSB 4051 at 5PM
  - Activity: TBA
