Cancer Biology Seminar

September 27th

Title: "The Genome: Elucidating the Cell Type Targeting MED1 in Hormone Driven Cancers"

September 29th

Title: "Localized GTP Biosynthesis Fuels Renal Cell Carcinoma Migration and Metastasis"

October 4th

Title: "New Twists on Old PTPs"

October 5th

Title: "Role of mTORC1 in Vascular Development"

October 8th

Title: "Loss of Foxf1 in Endothelial Cells Promotes Lung Tumor Growth and Metastasis"

October 15th

Title: "The Extracellular Matrix Niche in Breast Cancer"

October 19th

Title: "The Passenger CANonical Roles for DNA Damage Repair in Breast Cancer Treatment Response"

October 22nd

Title: "The LIN28/let-7 Pathway and 3' RNA Uridylation in Cancer"

October 26th

Title: "Organoid Based Models of Human Gastric Cancer"

October 29th

Title: "Application of Label free Quantitative Phosphoproteomics to Study Molecule Level Protein Interaction at the Single Cell Resolution"

November 2nd

Title: "The Gliadel Story, Treating Cancer at the Site of the Disease"

November 5th

Title: "Using Adult Stem Cells to Understand the Biology of Aggressive Epithelial Cancers"

November 8th

Title: "LC3C Regulates a Subpopulation of Cancer Initiating Cells in Kidney Cancer"

November 16th

Title: "The RASV-RAF-ERK Signaling Network in Early Breast Tumorigenesis Relies Upon Interactions of the Estrogen Receptor and Activated Erk"

November 23rd

Title: "Dysregulated O-GlcNAcylation of CDK1 and Cyclin B1 Is Associated with Breast Cancer Metastasis"

November 30th

Title: "Quantitative Phosphoproteomics Reveals Abnormal Signaling Displayed by Mutated G-protein Interaction at the Single Molecule Level"

December 7th

Title: "The Focal Adhesion Network: A Part of the Common Pathway in Cancer Growth and Metastasis"

December 10th

Title: "The Wide Role of CST Complex in DNA Repair and Cancer Treatment Response"

December 14th

Title: "Interplay of the Ataxia Telangiectasia-Mutated and Ataxia Telangiectasia Mutated-Like 1 pathways in Cancer Treatment Response"

December 17th

Title: "The Metabolic Requirements for BCR-RON Receptor Signaling Drives Castration Resistant Prostate Cancer through β3-adrenergic Signaling"

December 21st

Title: "The Gliadel Story, Treating Cancer at the Site of the Disease"

Title: "No Seminar"

Title: "No Seminar"

December 28th

Title: "The Role of FOXC2 in the Development of Laryngeal Dysplasia and Laryngeal Malignancies"

Title: "The Wide Role of CST Complex in DNA Repair and Cancer Treatment Response"

January 4th

Title: "The Wedding of PTPs and Protein Kinases: A New Weapon in the Battle Against Cancer"

January 11th

Title: "New avenues of PTPs for Drug Discovery to Breast Cancer Treatment Perspectives"

Title: "No Seminar"

January 14th

Title: "The Role of FOXC2 in the Development of Laryngeal Dysplasia and Laryngeal Malignancies"

January 18th

Title: "The Wedding of PTPs and Protein Kinases: A New Weapon in the Battle Against Cancer"

January 22nd

Title: "No Seminar"

January 25th

Title: "No Seminar"

January 28th

Title: "No Seminar"
