A Boozy Liver

Megan Goebel presented a case of acute liver injury to noon report on Monday. The case highlighted the differential for acute liver disease as the patient denied his heavy liquor intake for several days of inpatient care. The team discussed history taking advice for patients with acute liver disease as well as how to develop a concise yet thorough disease evaluation.

Liver biopsy showing steatohepatitis, lobular neutrophilic inflammation, and pericellular fibrosis.

VZV Encephalitis: Jeff, Megan and Kantha presented a case of disseminated VZV in a pt who presented with confusion and a dermatomal rash.

UH RESIDENT SPACE RENOVATIONS! PHASE 1

One of the resident driven initiatives over the past year has been to expand resident workspace and retain the lounge as break room/lounge space. With the help of the GME office and hospital admin, Phase 1 of construction has officially begun! We are flipping the family lounge and the orange conference room and adding workspaces. Look for Phase 2 of the renovation in the coming weeks!
