State of The Department Address—Dr Rouan—530PM, Kresge Auditorium

Night Float Style!

These guys got nothing on Danny Peters

Anonymous Feedback

Our website has a section for anonymous feedback. Think of this like an electronic suggestion box that you can use at any time. The message will be sent directly to Dr. Warm, and is completely anonymous. If you have constructive feedback that you would like to share, please use this tool. The link is: http://intmed.uc.edu/education/residency/feedback.aspx
On Tuesday Jillian Wang gave us a run-down of Ocular Urgencies and Emergencies we may encounter in general internal medicine. She’s ahead of the game as she prepares for ophthalmology residency in Tucson, AZ! Here’s a run down of some topics we discussed.

**Orbital Blowout Fracture**

**Foreign Body**

**Retinal Detachment**

**Central Retinal Artery Occlusion**

**Acute Angle Glaucoma**

**Herpetic Keratitis**

**Corneal Injury**

On Monday Barbie Reichert taught us the Need-To-Know’s about skin conditions before she takes talents to Cleveland for dermatology residency this summer! Here’s a couple of the skin conditions we discussed.

**Tinea Capitis**

- Superficial dermatophytosis common in kids
- Scaly patches of hair loss with slight erythema, sometimes pustules, no pruritis/pain
- Treatment with oral agents (griseofulvin or terbinafine) 6-8 weeks + antifungal shampoo

**Alopecia Areata**

- Autoimmune disease where CD4, CD8 cells attack hair bulb
- Sharply demarcated smooth area of complete hair loss without scarring scaling or inflammation
- Treat with local steroids

**Tinea Versicolor**

- Non-invasive fungal infection with Malassezia Furfur
- Multiple often coalescing small circular maculae that may vary in color, fine scale, more apparent on tanned skin
- Topical antifungals, topical selenium sulfide 1st line
NEED TO DIRECTLY ADMIT A DISCHARGED PATIENT?
NO PROBLEM!

Need a patient you saw as an outpatient or recently discharged to be directly admitted? No problem! Just contact an inpatient chief during business hours or the chief on call during evening/weekends and we can help get you to bedboard for the admission.

COMING SOON...

Dr. Dell is working on a Medical Hold order in Epic that should be available shortly! More to come when the order is live!

ROOM REMINDER:

The new work room and resident lounge are not team specific. In order to help everyone utilize the room and encourage teaching we encourage teams not to use it for table rounding! The noon report room is a good place for table rounding if needed. Thanks!

Baby Lin!

Take the time to give a warm welcome to Parker Charles Lin! Megan and Perry’s child was welcomed into the world on April 28th weighing in at 8lbs 9oz of adorable baby!
How many blood products did my patient get?
Check out this new feature in epic!

On the “patient summary” tab, type in:

</tbody>
</table>

Scroll down and you will see a list of transfused products: For each type of product, you will see how many units were transfused and when they are completed. If a unit is currently transfusing, the status will say “transfusing”
**Board Review with Dana**

*Well sports fans, it’s time to start gearing up for boards. Here is a quick pearl I learned this week:*

**Q:** Which is the only H. pylori test not affected by recent bleed or PPI use?

**A:** Serology. If they’ve had Abx within 4 weeks or use of PPI/bismuth/GI bleed within 2 week, sensitivity of rapid urease test, urea breath test, stool H. pylori Ag and even tissue biopsy is reduced.

---

**2015 Herbert S. Waxman Chief Resident Teaching Scholarships**

Our own Matt Kelleher recently received the 2015 Herbert S Waxman Scholarship. He and two other chief residents were flown to the national ACP meeting in order to teach clinical skills workshops to young physicians from around the country. Congratulations Matt!!!

---

**Research Corner: A Slice of UC’s Cutting Edge**

Our own Dr. Korey Haddox is currently doing research with Dr. David Harris in the department of cardiology. He is using a new post-processing analytical software system to calculate the coronary flow reserve in cardiac magnetic resonance perfusion stress tests. The goal is to generate perfusion curves that will help further define the cut-off points for critical ischemia requiring revascularization. Keep up the good work Korey!
The Weekend To-Do List— May 1-3rd

1) **Flying Pig Weekend:** Thousands of runners and walkers take on the big race. Come cheer on the runners or check out the “flying fur” dog run, pasta pig out, and the finish line party at Yeatman’s Cove. Free.

2) **The Music Man in Concert:** 5/1-3, Music Hall. Music from local Cincinnati Conservatory of Music and Playhouse in the Park artists take over Music Hall to show off music from the classic. OTR $25+.

3) **Cincy-Cinco Latino Festival:** 5/2-3 noon-11P. Celebrate the season with authentic music, culture, food, and more. Downtown, Fountain Square, Free.

4) **Lawrenceburg Motorcycle Speedway.** 5/1 7:30, $10.

5) **Party in the Park:** Every Wednesday 5-10P. Put a little weekend into every Wednesday on the riverfront with cool drinks and music on the Serpentine Wall in Yeatman’s Cove, Downtown.

---

**Medical Trivia**

First responder to Dana with the name of the drug causing this urinary crystal gets a Starbucks card!

Congratulations to **Jillian Wang** for identifying Lisch Nodules in NF-1.

---

**SHOUT OUTS!!! (Let us know who Rocks)**

-Shout out to **Dr. Rashkin** for working with Epic to create easier viewing of administered blood products and hPTTs with heparin dosing!

-Shout out to **Jillian Wang** and **Barbie Reichert** for preparing excellent noon report conferences this week about ophthalmology and dermatology for the general internist!

-To Thomas, who agrees “My swag is on point!” - **Thomas Getreu**

-Shout out to **Jeff Hausfeld** for reorienting all the residents to the mighty VA

-Great job to everybody for completing their ICD-10 training on time
