Project OCEAN

Project OCEAN (Optimizing Cardiology EducAtioN) is rolling forward and preliminary results are in to support its effect on resident experience thus far.

In November, the service was divided into 2 teams.

Data from YOUR Medhub evaluations suggest that the creation of 2 teams and other changes within the division have improved the experience on the Cardiology 6S experience.

Kudos to the Division of Cardiology for their ongoing commitment to improve resident education and experience in Cardiology.

However, the job’s not done. More to come soon!

Welcome to the Cincinnati VA Medical Center

Currently PIV badge is still necessary to log-on at the VA. However, there are unanticipated hiccups and the process may soon change. In the mean time, we recommend faxing records to UC as necessary until remote access is restored.

Stay tuned for updates.
