WHO: ALL RESIDENTS AND CHIEFS
WHAT: The chiefs will chat briefly about UH and VA wards improvement updates as well as possible considerations regarding jeopardy. This will be a time for you all to voice your opinion regarding current and future plans of improvement, as well as bring up topics that need to be discussed among all residents!
WHEN: Tuesday August 15th at 4:30pm
WHERE: UH Noon Report Room (7104).

Happy Hour with the Chiefs
Afterward, those of you interested should join us at Mecklenburg Gardens (302 E University Ave—aka one block down from Chipotle) for HAPPY HOUR around 6pm!

AHD Questions and Flashcards
Hey there interns! As you have all now become familiar with Osmosis, we will begin assigning groups to write flashcards or questions! Each learning community will be assigned a topic. These questions should be written PRIOR to coming to the AHD (excluding HTN). See the calendar and the Chief group below! And Seniors, completing these questions will be great practice for the upcoming ITE!

8/10 Hypertension: Javy’s group
8/24 Anemia: Danielle’s group
8/31 GI Bleed: Rita’s group
9/14 COPD: Tim’s group

Arts in Medicine Elective
Pictured here is Leila Borders and Megan Carway at the Art after Dark event downtown at the Cincinnati Art Museum! They attended this event as part of the Arts in Medicine elective that former resident now Sports Medicine fellow Leila Borders created for her Master Teacher Program project. Tips and Tricks

Every now and again you may find a task you are unsure of how to complete. But don’t worry, you are likely not the only one! If you have tips, tricks, or suggestions for improvement, just email the Chiefs so we can help! This week the Chiefs wanted to spotlight a few tips from some amazing Senior Residents and Attendings as detailed below.

- Make sure to actually enter the patient’s social history when admitting! This often gets auto-populated into an H&P, so make sure the info is correct, even if it is basic (like where they live and whom with). This is often integral information for other members of the team (Social Work, PT) when evaluating a patient for discharge.
- When you are caring for a transfer, make sure the hard copy of their records are placed back into the patient’s physical chart. Your colleagues in both Medicine and other services will greatly appreciate it when they care for that same patient.
- Consider writing a brief reason when making a patient NPO using the comments section within the order (for example, “for stress test on 8/12/17”). This allows other members of the care team to have an understanding of the plan, and it often prevents pages!
- Because there has been some confusion regarding Inpatient Hospice, the abbreviated steps needed to complete this listed below are the abbreviated steps and orders needed to complete this process:
  - Complete the Medication Reconciliation for the patient.
  - Sign the Discharge Order to Hospice.
  - Write new admit orders then sign & hold.
  - Make sure Bedboard is notified (584-4740).
  - Bedboard creates a new admission — the patient falls off your list.
  - Open patient’s chart in the new encounter.
  - Release held orders.
