|         | As of 1-23-2019                             | 1 New Years Day                     | 2 MM&I                                          | 3 Hepatobiliary                             | 4 MR sequences:  
Inversion recovery, etc.  
Jesse Hinton, MD |
|         |                                             |                                     | The Colon, pt 2                                 | Wellness Day                                | STARTS 12:30 PM!  
Ergent Zhiva, MD  
Penetrating trauma and radiologic appearance of common projectiles |
| 7:15 -  | 7 Booked for Skull Base Conference          | 8 Brain Arteriovenous Malformations | 9 Peripheral arterial dz & interventions, pt 1 of 3 | 10 Hepatobiliary                            | 11 MRI Conference  
at CCHMC |
| 8:00    |                                             | Thomas Tomsick, MD                  | Ram Chadalavada, MD                             |                                             |                                             |
| 12:15 - | Stereotactic Biopsy                        | STARTS NOON! Neuro Faculty Candidate | Challenging Breast Biopsies                     | Neonatal Chest                              | STARTS 12:30 PM!  
Ann Brown, MD  
Breast Implants |
| 1:00    | Mary Mahoney, MD                            | Jennifer Joyce, DO                  | Rifat Wahab, DO                                 | Alan Brody, MD                              |                                             |
| 7:15 -  |                                             |                                     | STARTS NOON! University of Ottawa              |                                             |                                             |
| 8:00    | Program Directors’ Meeting                  | STARTS NOON! University of Ottawa   | Artificial Intelligence and Selected Application of Interest to Radiology Trainees | No Lecture                                  | Resdent Interesting  
Case Conference  
Eric England, MD |
| 12:15 - |                                             |                                     |                                      |
| 1:00    |                                             |                                     |                                           |                                             |                                             |
| 7:15 -  | GRAND ROUNDS                                | R1 Rad Exam Review                  | Post trauma, pt 2                              | 24 Hepatobiliary                            | 25 MRI motion compensation,  
MR artifacts  
Tyler McCurdy, DO |
| 8:00    | Jim Huynh, MD  
3D Printing Initiative                      | Carl Flink, MD                      | Abouelmagd Makramalla, MD                     |                                             |                                             |
| 12:15 - |                                             |                                     | STARTS Noon  
Faculty Meeting                               | Cystic Lung Disease  
Matthew Stephens, MD  
(Kapur) |
| 1:00    | - Residents Only -  
Personal Finance  
Ram Chadalavada, MD | 28 7:00  
3D Printing Initiative              | 29 Grading gliomas  
And the new 2016 WHO classification  
Mary Gaskill, MD | Cardiac Conference:  
Valvular Heart Disease  
Zach Wenker, MD  
(Kapur) |
|         |                                             |                                     | PIRADS V2, pt 2                                |                                             |                                             |
| 7:15 -  |                                             |                                     | 30 Image-guided percutaneous biopsy            | 31 Hepatobiliary                            |                                             |
| 8:00    |                                             |                                     | Jonathan Moulton, MD                           |                                             |                                             |
| 12:15 - | Nuclear Gastrointestinal Imaging           | Case based review of PIRADS V2, pt 2 | 3rd & 4th Year Residents  
Safe procedures/prevention of adverse medical events  
Lisa Lemen, PhD |
| 1:00    | Jennifer Scheler, MD                       | Sadhna Verma, MD                    |                                              |                                             |                                             |
|         |                                              |                                     |                                              |                                             |                                             |
| 7:15 -  |                                             |                                     |                                              |                                             |                                             |
| 8:00    |                                             |                                     |                                              |                                             |                                             |
