Research Continuity Discussion: Research Return to Campus.
The Vice President for Research and Office of Research senior staff will be hosting a Research Continuity Discussion via WebEx on Wednesday, May 13th at 4pm. They will discuss the next steps and principles guiding a Research Return to Campus with a June 1st target date. Questions are strongly encouraged. To assist in obtaining the best information available, please submit questions beforehand to research@uc.edu. All participants are asked to mute their microphone and turn off the camera upon entry. WebEx’s chat feature for questions/comments during the discussion. Register today.

One of the first COVID-19 biorepository systems in the nation is being built by our doctors and scientists effort to try to make research against the virus more efficient. Researchers at the University of Cincinnati along with the Cincinnati Veterans Administration Hospital and Children’s Hospital are working together to create the repository. So far, they’ve collected samples from over 60 people, and researchers hope to have 500 involved before they are finished. Click here to learn more.

In this presentation, OoR staff will highlight some key information on the basics of budgeting, the available tools, and most importantly where to turn for assistance. They will review a sample project and walk through the process of creating a budget for that process in a workshop format. This will be followed by a Q&A where the presenters will be available to discuss any specific areas of interest to the audience, and answer any questions. This Webex is scheduled for Tuesday, May 26, 2020 from 2:30-4pm. Register today.
