

Researcher Information Form

Name: David Plas

Department/Division/College: Cancer Biology

Room/Address:

The Vontz Center for Molecular Studies
Room 3312
University of Cincinnati College of Medicine
3125 Eden Avenue
Cincinnati, OH 45267-0521

Phone: 513-558-7245

Email: plasd@uc.edu

Research Interest (1-2 Sentences): The Plas lab studies the oncogenic effects of the S6 Kinases and TAM Receptor Tyrosine Kinases in the control of tumor metabolism and apoptosis resistance. In one aspect of this work, we are exploring therapy resistance mediated by activated S6 Kinase 1 (S6K1) signaling.
