Abstracts Accepted

Recent Presentation
Charles Doarn presented a lecture on ‘Living and Working in Space’ to medical students at Moscow State University in Moscow, Russia on January 23, 2014.

Research Division Staff/Faculty Changes
Douglas Smucker, MD has announced he will be retiring from UC on July 1 this year. Dr. Smucker will remain in Cincinnati and will continue leading the palliative care fellowship at Christ Hospital. He plans to expand his work with hospice care and teaching in the community. Doug Smucker was research director for many years, and has been a mentor and guide to many current researchers in Cincinnati and around the country. We will miss Doug and wish him well.

Please welcome Daniel Hargraves, our new Research Assistant! Daniel graduated from UC with a BA in Sociology and Master’s Degree in Social Work. He was previously involved with the Higher Education Mentoring Initiative and also worked with Clermont County on a SAMHSA grant called FAST TRAC, an initiative that expands mental health and community support services for families and students in all Clermont County school districts. Daniel will be working 50% on the Improving chronic Pain Care project and 50% with the Residency Community Partnered Projects.
