Study of the Month:

FASTEST Trial Survey

We need your input on an emergency care Exception From Informed Consent (EFIC) research study of bleeding in the brain.

The University of Cincinnati is joining researchers at more than 100 other hospitals across the United States and other countries to conduct a research study of bleeding in the brain called FASTEST.

This research study may affect you or someone you know, and we need to find out ahead of time what the community thinks about it. THANK YOU for your help and time in completing this survey.

Your participation in this survey is completely voluntary. To complete the survey, contact Stephanie Thomas at 513-558-4536, scan the QR Code, or visit <https://redcap.link/FASTEST>.
