From the Chair

The way our department came together to address the pandemic was inspiring. Multiple examples of creative problem solving emerged during the worst of the pandemic. The nurse-physician joint virtual in a virtual environment changed our communication and made it possible to think outside the box to overcome our usual norms. It will be essential to continue to build and use the capabilities developed during the crisis — whether it is in innovative training methods or virtual outreach for patients with increased comorbidities.

We are approaching the one-year anniversary of the pandemic in our lives. I am hopeful that 2021 will be a better year — that we will have learned from the past year has brought unprecedented upheaval to our practices. I am hopeful that 2021 will be a better year — that we will have learned from the past year's challenges.

There was such a good spirit exhibited between cardiopulmonary and IR, each section helping the other every time an update was sent out. Beyond that, our residents improved on their goal of spending more time with our patients and improving the experience of helping them in need. A way to measure our own personal values by donating the least of others, even in such a small way of donating a few cans of food.

Department Chair Mary Mahoney, MD, added, “We wanted to make our food drive this year even better than the last in 2020. Last year was our annual event run by our students, and this year we have a virtual event run by the students, and we are very proud to see the energy and enthusiasm that they bring to the table.

UC Radiologists Named Among Cincinnati’s ‘Best Doctors’

The Cincy Magazine survey of Cincinnati Best Docs 2021 has named UC Radiologists Rose Bertignet, MD, Ravi Reddy, MD, and Susan Braley, MD. They were chosen from a survey asking the magazine’s readers to vote for their favorite doctors.

The Cincinnati Magazine’s Best Doctors survey of medical professionals recognized Northeen Chabanian, MD; Thomas Eisenbrud, MD, Alfa Karad, MD; Abraham Makramalla, MD; Janica Carrozzella, MD; John Holliday, MD; and Dan Wu, MD. They were chosen from a a survey asking the magazine’s readers to vote for their favorite doctors.

The annual Scientific Session and Annual Meeting of the Radiological Society of North America (RSNA) was held virtually from November 29 to December 2, 2020. The meeting, which was intended to provide a platform for the exchange of ideas and knowledge in the field of radiology, included presentations, workshops, and sessions on a wide range of topics. The meeting also featured the presentation of awards to outstanding contributors to the field.

Andrew Pavlina, MD received the Distinguished Service Award from the American College of Radiology, and the National Board of Radiology, and the University of Cincinnati Radiology Alumni Association. The award recognizes significant contributions to the field of radiology and demonstrates outstanding leadership.

Dr. Mahoney is the first UC President of RSNA for 2021. "I am honored to be a part of this organization that actively supports women in radiology and works to promote diversity and inclusion in leadership, in its contributions and its advocacy work," Dr. Mahoney said. "We want to create an academic and society culture that reflects the diversity we represent and strive to provide an equitable and inclusive community that serves the needs of all our members." Dr. Mahoney also emphasized the importance of embracing different perspectives and fostering a culture of respect.

Our 2020 Fellows – Assistant Professor of Radiology, University of Cincinnati
- Nicholas Lumato, MD
- Eunji Cho, MD
- Jessica Wirth, MD
- Professional Radiology, Inc.

Our 2020 Fellows – Assistant Professor of Radiology, University of Cincinnati
- Zachary Wenker, MD
- Michael Burch, MD
- Gregory Wade, MD
- Radiology Physicians, Inc.

Our 2020 Fellows – Assistant Professor of Radiology, University of Cincinnati
- Maggie Mulligan, MD
- Mark Pandera, MD
- Radiology Physicians, Inc.

The physicians who completed Radiology fellowships at UC in 2020 have gone on to the following:
- Assistant Professor of Radiology, University of Cincinnati
- Nicholas Lumato, MD
- Eunji Cho, MD
- Jessica Wirth, MD
- Professional Radiology, Inc.

Our 2020 Fellows

Dr. Angela Brown, in the radiology residency fellowship at University of Cincinnati, has gone on to the following: Dr. Ethan Hughes, University of Maryland, Dr. Debra McIntosh, University of Virginia, Dr. Matthew Lee, University of Kansas, Dr. Megan More, University of California, San Diego, Dr. Michelle Nguyen, University of California, San Francisco, Dr. Surya Prasad, University of Florida, Dr. Elana Puhan, University of Pennsylvania, Dr. Alexis Smith, University of Michigan, Dr. Robert Steeves, University of Iowa, Dr. Nicole Ustian, University of California, Los Angeles, Dr. Rachel Wear, University of Wisconsin, Dr. Sarah Wilcox, University of Cambridge, England, Dr. Katelyn Zellers, University of Illinois, Chicago.

Presentations at RSNA 2020

In 2020, the University of Cincinnati Comprehensive Breast Center had been reaccredited for the eighth consecutive year as a “Center of Excellence in Breast Imaging” as designated by the National Quality Measures Collaborative (NQMC). The NQMC is an independent organization supported by the Agency for Healthcare Research and Quality (AHRQ) to improve healthcare quality in the United States. The center has held this excellence given by the NQMBC. The center is one of two centers in Ohio to earn a triple distinction.

Dr. Mahoney was a frequent presenter in the NQMBC Faculty Development Academy, which is held virtually periodically. The Academy is held virtually periodically and is a program held to shepherd applicants into the fellowship program.

In addition to the usual snacks, we also had a virtual open house for prospective residents. A link was sent to Residency recruits so they could learn more about the program. In addition to the usual snacks, we also had a virtual open house for prospective residents. A link was sent to Residency recruits so they could learn more about the program. In addition to the usual snacks, we also had a virtual open house for prospective residents. A link was sent to Residency recruits so they could learn more about the program.

Looking forward, the University of Cincinnati has planned for an online recruiting event as a virtual program. This year’s annual “Beat the Pint Night” program held online, which is a popular event.

Looking forward, the University of Cincinnati has planned for an online recruiting event as a virtual program. This year’s annual “Beat the Pint Night” program held online, which is a popular event.
The annual Scientific Session and Annual Meeting of the Radiological Society of North America received awards for its programming, "Mahoney says. "I am honored to be the first woman to be elected President of RSNA for 2021 in 78 years," she noted.

"I am honored to be the first woman to be elected President of RSNA for 2021 in 78 years," she noted. "In 2021, the University of Cincinnati Comprehensive Breast Center has been reaccredited for the eighth consecutive year as a "Center of Excellence" in the National Comprehensive Breast Centers (NCBC) Program.

In response to her request for photos of the cities where attendees could join in and address questions about the program, the Cincinnati Cancer Center’s Inpatient and Outpatient Neurocritical Care Team and the Greater Cincinnati/Northern Kentucky Stroke Team physicians were able to share information about their programs.
For the third year, the UC Radiology chapter of Rad Aid conducted a holiday drive for the Cincinnati Children’s Hospital Medical Center in December to support the Restore-Fund. Rad Aid is an international organization of radiologists worldwide, which has primarily focused on providing radiology services to underserved populations around the world. The Restore-Fund, their local chapter, began a holiday food drive, food and supply drive to the Cincinnati Children’s Hospital Medical Center in December. The impact of COVID-19 has been far reaching, affecting us in every aspect of our personal and professional lives. It has changed how we live, work, play, and even our thinking has been changed. It has highlighted the inequalities in our practices, but there were also bright spots. One of the highlights of the past year has been the virtual annual meeting of the Radiological Society of North America, which was held by Achala Vagal, MD, who is the current President-elect. The study will build on data collected by Dr. Vagal and colleagues in previous works on stroke units, including one published in 2011 in the Journal of Neurological Stroke. Researchers have received a $1.96 million grant from the National Institutes of Health in December, 2020. The researchers have been working on the ROSE-LAWN project, which was granted funding by the National Institutes of Health/NIH in December, 2020. Over the next five years, the researchers will conduct a large-scale study of stroke patients in order to improve the care of stroke patients. The study will involve data from more than 1,000 stroke patients, which will be collected over 800 cans. The study will involve data from more than 1,000 stroke patients, which will be collected over 800 cans.
