

RESEARCH LAB DENSITY ATTESTATION

effective October 1, 2020

While 100% density is now possible, there is still an expectation to minimize density by continuing to perform activities remotely as much as possible.

Please be aware an increase in COVID-19 infections within the CoM buildings, individual labs, departments, and the whole College could result in closure. It is in our best interest to ensure all precautions which kept us safe thus far are maintained to get our research engine at capacity.

Faculty Member/Research Location Director:

Department/Unit:

Total # Lab Personnel, including PI and students:

Projected Lab Density as of October 1, 2020:

(e.g. 100%; variable ranging from 75-100%; retain 50%, etc.)

Attestation

I will ensure that all COVID-19 safety precautions as outlined in the previous density document will be maintained (e.g. masks, 6 ft physical distancing, handwashing, etc.) and that my lab personnel understand that if these are not maintained, the laboratory may be closed.

Investigator Signature

This attestation has been acknowledged by the appropriate supervisor. Supervisor will sign and submit electronic copy to Dean or designee; additional copy will be returned to faculty member/research director to post in all pertinent workspaces as an addendum to the existing plan.

Supervisor (Unit/Department Head or Dean's Designee) Signature
