

## FY 2022 Awards and Funding Opportunities

### Funding Opportunities

#### Bridge Funding Program (\$75,000 per award)

Applications due: Rolling deadline

The [Bridge Funding Program](#) was established to provide short-term bridge- or “gap”- funding for productive CoM researchers who have had previous NIH funding, and who have remained active in research and in submitting grant applications, but who are now between funding cycles.

#### Research Innovation Award (\$30,000 per award)

Applications due: April 27, 2022

The [Research Innovation Grant Program](#) was established to assist CoM investigators with generating the preliminary data necessary to develop highly competitive grant applications or to take their research in a new direction.

### Recognition

#### Citizenship/Research Service Award (\$1,000 per award)

Applications due: February 2, 2022

This award recognizes a CoM faculty member for exceptional service to our research mission.

#### Basic Science and Clinical Research Faculty-to-Faculty Mentoring Award (\$1,000 per award)

Applications due: May 4, 2022

In partnership with the Office of Faculty Affairs and Development, this award recognizes a CoM faculty member who has demonstrated a rich history of mentoring faculty researchers with establishing their laboratory and securing extramural funding.

#### Research Professional Award (\$1000 per award)

Applications due: October 27, 2021

The award will be presented to a laboratory or clinical research staff employee who in the opinion of the research leadership shows an outstanding commitment to advancing the research mission of the College of Medicine.

#### Research Rising Star Award (\$1,000 per award)

Applications due: November 17, 2021

This is awarded to a CoM Instructor or Assistant Professor who demonstrates outstanding research accomplishments and impact at the early career stage.

### Gallery of Awardees

Faculty who have been awarded external grants of \$100,000/yr. or more in direct costs are recognized in the [Gallery of Awardees](#). Besides celebrating our successful investigators, a brief synopsis of the award goals and pictures of the faculty are included on the announcement so that other faculty interested in potential collaborations or seminars by our researchers can contact them.\*It may take 2-3 months before the Gallery of Awardees recognizes new awards due to the processing of data.

## **Grant Writing Support**

**Grant Pre-Review (\$200 for internal reviewers, \$300-\$500 for external reviewers)**

Applications due: Rolling deadline

Faculty may submit grants to be reviewed at any time during the year. However, applications need to be submitted 60 days prior to the actual grant deadline to allow for a thoughtful review and time to respond to the suggestions by the reviewers. [CoM Grant Pre-Review Program](#) supports the refinement of scientific projects and grantsmanship of proposals from CoM faculty prior to official submission of a grant application to a funding agency with this mechanism.

### **R Club Grant Program**

The purpose of this program is to assist early career/junior investigators in the preparation of their first R01 proposal to improve grantsmanship by promoting clarity of thought and logical presentation of a research proposal so as to have the greatest impact on fundability.

For more information contact [Brieanne Sheehan](#).

## **Communications**

The College of Medicine Office of Research utilizes several platforms to communicate with our research community. Be sure to check out:

- Twitter and Facebook- [@UC\\_CoMResearch](#)
- Digital Signage throughout the CoM campus- <http://med.uc.edu/about/signage-request>
- Impact Factors (weekly research newsletter)- email [sheehabe@uc.edu](mailto:sheehabe@uc.edu) to subscribe
- Webpage (grant templates, UC policies, Core information, and more)- <http://med.uc.edu/research>
