		exposure to the diagnosis and comprehensive treatment of patients with multiple sclerosis primarily, but not exclusively, in a clinical, out-patient setting.	transportation, travel to NYC and must submit a 1 to 2 page summary of the fellowship experience to the New York City-Southern New York Chapter within 2 weeks of the conclusion of the fellowship.						
01/10/13	American Society for Radiation Oncology (ASTRO) email: education@astro.org for application and information: https://www.astro.org/Research/Funding-Opportunities/ASTRO-Supported-Grants/Minority-Summer-fellowship/Index.aspx .	The purpose of the minority Summer Fellowship Award is to introduce first/second year medical students from backgrounds that are under-represented in medicine to the discipline of radiation oncology early in their medical education. In an effort to promote radiation oncology as a career choice, the fellowship will provide medical students with a unique training opportunity that focuses on mentoring and hands-on experience in radiation oncology clinical and basic science disciplines.	Applicant must show an interest in radiation oncology sciences. Applicant must be enrolled in a U.S. medical school, be in good standing at the time the application is submitted. Applicant must be able to identify a mentor with extensive research experience. Either the primary mentor or co-mentor should be an ASTRO member. Research must be undertaken at a North American institution during the summer of 2013. The selected institution must have a well-established research and clinical program and qualified faculty in radiation oncology sciences to serve as mentors. Letters of commitment from both the mentor and the selected institution must accompany the application. Applicants may not submit more than one research or education grant application per year.	The ASTRO Summer Fellowship Grant offers each student a \$3,000 package that includes a \$2,400 stipend for an eight-week training program and \$600 to attend the ASTRO Annual Meeting the following year (2014).	03/01/13	Applications received no later than 5pm Eastern time on March 1, 2013. The grantee will serve as the first fiscal agent. The award will begin on July 1, 2013, with a \$3,000 payment paid at the beginning of the fellowship. ASTRO does not pay indirect costs, overhead costs or salary support for the principal or co-principal investigator, and has no responsibility for support beyond that stated in this application. The grantee must submit an abstract to the 2014 ASTRO Annual Meeting before the abstract submission closes.	Summer Program		
01/10/13	Application & More Information Applicants must submit: a completed application form, statement of purpose, short answer questions, resume/curriculum vitae, official transcript, and two letters of recommendation. To receive an application, contact Rachel Milliron, Program Coordinator, at 617.432.1892 or email pfdd_dcp@hms.harvard.edu. For more information visit http://www.mfdp.med.harvard.edu/ .	Program Description The Visiting Research Internship Program (VRIP) is an eight-week mentored, summer research program designed to enrich medical students' interest in research and health-related careers, particularly careers in clinical/translational research: research that transforms scientific discoveries arising from laboratory, clinical, or population studies into clinical or population-based applications to improve health.	Eligible participants are: first and second year medical students, particularly underrepresented minority and/or disadvantaged individuals, in good standing from accredited U.S. medical schools. Applicants must be U.S. Citizens or U.S. Noncitizen Nationals or Permanent Residents of U.S.	The Visiting Research Internship Program is a paid internship. Transportation is reimbursed up to \$400 toward the cost of traveling to and from Boston.	01/23/13	Program Length The eight-week, Visiting Research Internship Program begins June 3, 2013 and runs through July 26, 2013.	Summer Program	Boston	Massachusetts
01/10/13	Application & More Information Applicants must submit: a completed application form, statement of purpose, short answer questions,	Program Description The Summer Clinical and Translational Research Program (SCTRP) is a ten-week mentored, summer research program	Eligibility Eligible participants are: undergraduate sophomores, juniors and	Financial Assistance The Summer Clinical and Translational Research Program is a paid internship.	01/23/13	Program Length The ten-week, Summer Clinical and Translational Research Program begins June 10, 2013 and runs through August 16, 2013	Summer Program	Boston	Massachusetts
